By

Wale Shonibare

Please pay a rapt attention, what you are about to discover will change your life forever. In the next few minutes, you will discover:

- How to Start and run a successful Mini importation business from the comfort of your home starting with little capital
- How Aliexpress is ripping you off and why you should **NEVER** think of buying goods from Aliexpress or Dhgate if you want to be truly successful in this business
- How to Order for goods directly from Chinese Manufacturers without the help of a middle man (You can customize according to your specification and even have them put your name on the product, Just like I did)
- How to sell your goods for maximum profit on two of Nigeria's most reputable and **biggest Ecommerce sites, Konga and Jumia**

The Fact is.....

Several people are into the mini importation business in Nigeria today, but not all would be as successful. Many people are even dumping the business and embracing other means of livelihood, they are beginning to see the business as being too difficult and making real money is only reserved for the big importers.

Who Am I and Why Should You Listen to Me?

Let me quickly introduce myself and tell you why I'm qualified to tutor you in this business. My name is Wale Shonibare, a recent graduate of Business Administration from the prestigious University of Lagos. I'm the proud owner of www.importationwealth.com, the number one Mini Importation Business Blog site in Nigeria. I started the blog so as to share ideas base on my experience in the business with importers wannabe. I have been into the Mini importation business for more than 3 years (since my undergraduate days back in school).

I'm going to stop at that because this E-book is not about me but about those that desires financial freedom. The Mini importation business is by far the easiest and most

profitable business anybody can lay his/her hand on. With adequate knowledge and right guidance, you can turn a little some of amount to millions of Naira in a short period of time. I will guide you through, let's roll on.

Few years ago, the idea of mini importation business became viral, everybody began to import from popular online stores in China, it's either Aliexpress or Dhgate, these two websites were regarded as a safe haven for mini importer, in short, people became satisfied with low profit, hence they didn't deem it fit to find alternatives on how to import things at a cheaper rate. I can confidently tell you that Aliexpress and Dhgate are ripping off their customers, I would show you proofs later on and would also share with you a website that has been kept as a secret for a very long time. On this website, items can be bought at very ridiculous prices, and the process of buying from them is almost the same as that of Aliexpress, but before I share the secret website with you, I would show you how you're being ripped off by Aliexpress, this would make you understand how valuable the information am about to share with you is.

To Americans and Europeans, buying from Aliexpress might be very cheap. after all, their currency is superb and can match up with other country's economy, but to a Nigerian, importing a polo shirt for \$11 (#1800) is quite expensive, because a quality polo shirt is priced within the range of #1500 to #2000 in Nigeria market, take note that the importer is responsible for the shipping cost, which means the cost of buying a polo shirt might be as high as \$15 (#2400), provided you're ordering in bulk and using cheap courier service; How then do you want to make profit, if you venture into this kind of business? Let's move on, this revelation will shock you.

Firstly, we need to understand the Chinese currency and its current worth against the Naira.

1 Chinese Yuan equals

26.86 Nigerian Naira

1	Chinese Yuan
26.86	Nigerian Naira

The current exchange rate of Yuan against our Naira is 26.86 (1 Yuan = N26.86 approx. N27). So, each time we do our analysis we just multiply the price we have on the Chinese site by this exchange rate to give us the actual value of the product in our local currency. we also need to know the current value of Dollars against Naira (As at the time of my writing)

1 US Dollar equals

164.50 Nigerian Naira

1	US Dollar
164.50	Nigerian Naira

On the local Chinese website I would be sharing with you, this cool Polo shirt is sold for 16 Yuan (approximately #430).

On the 'Almighty' Aliexpress, the same product is sold for \$11.88. So, we multiply 11.88 by 164.50 which will give us 1954.26 (approximately #1955). Can you see the huge difference? Do you know how many of the shirt you will buy on the Chinese website with this money? Do the calculation yourself

A Mini Laptop for 448 Yuan (Approx. 12,000)

Aliexpress is designed specifically for international buyers, this explains why the price of their item is very high, on local Chinese website, there is no income tax, international tax or any duty payment, hence items are sold at a very cheap price, and this is where most Chinese order their items. By the time you're done reading, you would know the secret Chinese website am referring to. I think the above proof is enough to make you want to know about the secret Chinese website as soon as possible.

Now! I will have to stop the comparative analysis here and reveal this my "So Called" secret website. Not to waste too much time, the website is known as [1688](#).

There you are! That's the exact secret of most importers in the country. You could see that the language is purely in Chinese, it means it's strictly for Chinese people. There are millions of goods here on this platform at very ridiculous prices. Have you ever been to the Mandillas or Balogun market in Lagos-island and wonder how this people manage to sell their goods for low prices? If you are looking to start a Mini fashion outfit, Mandillas and Balogun market are your sure bet to buy goods at cheap prices. But now, you even have a place where you can buy cheaper than those cheap prices in the local market. I'm sure you are getting excited by now.

I guess I know what is going through your mind right now, like "If the site is meant for Chinese only, why revealing it to Nigerians then? Isn't the information useless and a

complete waste of time?" Well! If you relax a little bit you will get the whole gist and how you can also order from the site even if you don't understand a bit of the Chinese language (I don't understand the language myself and I don't want to).

I will want you to just go to the website and check things out yourself, compare with Aliexpress price and also prices from the local market. This year alone, I have made hundreds of thousand Naira buying and reselling goods from this website, from the comfort of my home.

But how do we order and get the goods down to Nigeria?

I know this is the question on your mind now, and I am going to tell you how to do that.

Buying from 1688 can be a little tricky because of it being a strictly Chinese website, but you can actually overcome that with the help of a freight forwarding company. There are several Nigerian companies in china that are into the business of shipping goods down to Nigeria. They understand the China market very well because they are always in partnership with the Chinese people.

The service of these freight forwarders includes helping you purchase from China and sending goods down to Nigeria. You don't have to bother yourself. All you need to do is to search for goods on the website and send the links to them, they will handle the rest. You receive your goods here in Nigeria within 1-7 days.

This is the best business you can run in Nigeria today either part-time or full time. **With the right knowledge and Guidance you can turn a mere N10, 000 into millions of Naira within 12 Months.** And I am ready to help you achieve that.

I'm ready to take you by the hand and show you how to get started buying goods from China at the comfort of your home at ridiculous prices and sell for high profit on JUMIA and KONGA

*If You Are Ready To Put A Stop To Your Financial Problems, You Must STOP Every Other Thing You Are Doing And Read Thoroughly the final part of this Information Over And Over Again..... And Then, **TAKE ACTION!***

When I first made this discovery, I couldn't believe it myself. All we have been thought and learned from the so called importation gurus centered on buying from Aliexpress and Alibaba. Although, goods are available for purchase on these two sites, **but I will point out their shortcomings to you.** Challenges that can break you in this line of business.

The Minimum order quantity (MOQ) on Alibaba which is usually as high as thousands of pieces is a turn off for new and small players in the importation business and those with limited financial resources. And also there exist lots of scammers on the Alibaba platform. Aliexpress on the other hand is filled with lots of goods at higher prices like I have proved to you above. The truth is most sellers on Aliexpress are not real manufacturers; they are wholesalers/retailers who buy from Manufacturers in small amount and sell at exorbitant prices to people.

Now! Let me ask these questions?

Are you ready to join the importation millionaires club? I mean starting your own importation business empire from the comfort of your home.

Are you ready to learn all the tricks involved in this business?

Are you ready to achieve and live your dream life?

Are you ready to learn how to sell your goods for maximum profit here in Nigeria **partnering with the two largest E-commerce sites; Jumia and Konga**

If you answered **YES** to all these questions, then get ready for the most important moment of your life..... The very day your financial story would be re-written.

INTRODUCING!!!

MINI IMPORTATION BUSINESS SECRET DEMYSTIFIED – A **ground breaking** E-book on how to buy cheap goods on 1688 and two other similar websites, and ship them down to Nigeria within 24 hours (101% Guaranteed)... And also discover how to partner with Jumia and Konga (Showing you how I made N500, 000 in less than 30 days on these two sites)

*If you do not desire to start an importation business and generate massive income to live the life of your dreams then this E-book is definitely not for you and I highly recommend you **STOP** reading this write-up right now.*

However if you really want to cut through all BS and discover how to start and run a successful importation business that is bound to make you millions of Naira in a short space of time..... Then Keep Reading

I am going to reveal the complete information of this Importation wealth formula to **Just 50 people. Yes! You saw it right Just 50 people**

No Hype

NO Gimmicks

100% Guaranteed

You will be amazed by what you will discover

Let's get something clear here.

I am revealing this secret system to you for a **SINGLE** purpose and that purpose is to hand over to you the exact strategies, tools and tactics that ***I use to import goods from the comfort of my home and how I sell for maximum profit here in Nigeria, And How I was able to partner with "Almighty" Jumia and Konga***

And get this straight.....

This information is clear cut, straightforward and powerful..... It's the exact secret big importers use to generate huge profit from this business. You think people travels to China these days to buy goods, you had better think again.

I guarantee that this is by far the easiest way to financial Freedom; I believe you know this already; I don't have to say much on that. Importation business remains the best business anybody can do anyday anytime.

Picture yourself sitting in front of your computer, and buying goods for cheap prices as if you are in China, then reselling for maximum profit here in Nigeria. I will reveal the complete info to you in this e-book. The motive of revealing this information and writing this E-book is to reduce the level of unemployment and poverty in this country. **A Chinese once said and I quote, "There is money everywhere in Nigeria, I just don't understand why Nigerians are living a poor life"**. Well! I think I know the reason... It's **information**. You see, information is powerful and key. The reason why you are not living your dream life yet is because you are yet to figure out what works and what doesn't. Without you getting the real information of how things are done and how to make it in life, I bet you will be locked in the rat race of life.

I know you still want some proof. Don't worry; I will give it to you. Below are screenshots of my accounts on Konga and Jumia

What you have here is the screenshot of my Konga account, and you can see the red circle showing you how much I have made so far. Actually, the figure represents a 30 days sales period; that is, I made this amount in less than 30 days. You can also see other statistics of my account. 246 of my goods has been delivered, 86 just accepted, 19 already shipped and so on....

The statement here shows the total money generated within 2 weeks; between 15th of Sept to 30th of Sept, 2014. I have to cover my store name in the picture above because it's against Jumia's Policy.

This screenshot shows the total revenue for the period of October 1st to October 14th, 2014.

That is it! My success formula is quite simple..... I have order for great and quality products from 1688 at very cheap rates and sell for substantial profit on **JUMIA and KONGA**..... Without any marketing effort.

You can get these manufacturers to brand these goods in your name and this is what I do now. I don't import randomly, I already have a niche and any product I'm selling always carry my brand name, **PHANTOM BOSS**. See the picture below for some shoes I had them customized for me.

These are some of my designs. Let's do some calculation here:

The cost of the shoe is 24 Yuan/ pair (Approx. N650)

Quantities produced: 400 pairs

Total Amount: N257, 000

Cost of shipping and Clearing: 172, 000 (It's high because I used Air Cargo, Sea Cargo is far lesser)

Total: N429, 000

Profit Analysis:

Selling price on Jumia/Konga: N4,000/Pair

Expected Revenue Figure: N4,000 multiply by 400 pairs = N1,600,000

Less Jumia/Konga Commission = 310,000

Total Revenue Realized = 1,290,000

Less Product cost = 429,00

NET PROFIT= N861,000

I need to point out to you here that I didn't start this big. It will interest you to know that the first time I got started with this importation business, i ordered just 30 pieces of female wrist watches and even the first time I had them produced the shoes in my name, I ordered for just two cartons (40 pairs). I built up the business gradually to this level and I'm still growing higher. With determination, you can achieve the same result and I'm ready to be your guide

Unconditional 100% Money Back Guarantee

If after reading this E-book, you feel that you have not learnt anything that will better your life and set you on your path to financial Freedom forever, ask for a full refund of your Money. I will gladly refund you, that's right 100%.

Why would I make such a one-sided guarantee in your favor?

Well, the truth is I'm not really worried about refunds because I am so confident that you will be fully satisfied. It has never been my habit of hosting seminars or writing E-books, I'm not really into the Information Marketing Business. All I do is sit behind my Laptop and research for goods to buy and resell. This is my first E-book, so I'm really putting in my best to make it something of a huge value for YOU. An Opportunity for you to take advantage of this great value at the LOW Price that this goes for.

I initially wanted to charge N25, 000 for this information because of its great value but I want this ONE to be a break for all those who have been complaining about not having money to buy Info Products or attend seminars.

As a result for this *time only*, The price for the E-book will go for **N4,000** only

BUT!!!

I'm not saying this E-book is available for every Tom, Dick and Harry at that price ooooo; it's only for the **FIRST 20 People**. The Price will go up to N10, 000 immediately the 20 people take up the offer.

NOTE: I'm actually annoyed with myself that I am pricing this E-book this low..... Because the pain of having to sit down to write and then type this post you are reading is so enormous and also the stress of putting the information together in form of an e-book
